**Subject:** Found the Barbee Mill plan from Aspect, draft August 2017  
**Attachments:** FW: Barbee Mill//draft Data Gaps Analysis report [EXTERNAL]

They are drilling 10 soil borings and 5 offshore borings, collecting soil and GW for arsenic analysis. I let Mario know what they are doing and he is going to make sure they are all aware of what's going on. Mario said the driller from Holt told him they were onsite with Aspect and they expected to be out there today and tomorrow.
